

Muhammad Wahab Ansari

Frontend Engineer specializing in React.js & Next.js
Expanding Full-Stack expertise with Node.js

 /wahabansari  /wahabansari  wahabansari.dev@gmail.com  Lahore, Pakistan

SUMMARY

Results-driven Frontend Developer with 5 years of experience building scalable, high-performance web applications from concept to deployment. Proven track record of delivering measurable impact, including a 30% Core Web Vitals improvement. Specialized in React.js and Next.js with strong command of SEO, responsive design, and pixel-perfect UI implementation. Experienced collaborator in Agile teams with a growing full-stack skill set in Node.js.

EXPERIENCE

Oxiliry
Sunhub - Frontend Developer

- Delivered a 30% performance boost by eliminating unused assets, optimising the build pipeline, and implementing advanced front-end performance strategies — directly improving Core Web Vitals and user retention.
- Designed and developed responsive, high-performance ReactJS web apps, ensuring cross-browser compatibility and seamless user experience across all devices.
 - Collaborated closely with UI/UX designers in Figma to translate wireframes and high-fidelity mock-ups into pixel-perfect, accessible front-end interfaces with meticulous attention to detail.
 - Achieved the **30% performance** improvement through lazy loading, tree-shaking, removal of unused assets, image compression, and a fully streamlined build process optimisation pipeline.
 - Integrated RESTful APIs and built robust form validation using React Hook Form, ensuring reliable data handling, error management, and smooth user interactions.
 - Actively participated in Agile/Scrum ceremonies — including daily stand-ups, sprint planning, and retrospectives — maintaining clean, version-controlled code across Git/Bitbucket repositories.

Elite International Group
EHS Group - User Interface Designer

- Led the end-to-end redesign of a full LMS platform — migrating the entire design workflow from Adobe XD to Figma, enabling real-time team collaboration and cutting design-to-development handoff time significantly.
- Spearheaded the migration of the complete design process from Adobe XD to Figma, establishing a collaborative, cloud-based design workflow that improved team efficiency and real-time feedback.
 - Executed a full redesign of the LMS platform — reimagining dashboards, student portals, and admin panels using a component-based design approach for long-term consistency and maintainability.
 - Built and maintained a comprehensive Design System — defining reusable UI components, tokens, typography, spacing rules, and icon libraries to ensure visual consistency across the entire product.
 - Collaborated directly with developers through structured design handoff sessions, ensuring pixel-perfect implementation and eliminating ambiguity between design intent and final output.

SKILLS

Frontend Development	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3	Mobile & Cross-Platform	NativeScript, Progressive Web Apps (PWA), Responsive Design
UI Frameworks & Styling	Tailwind CSS, Bootstrap, MUI, Mantine UI, Ant Design, SASS, PostCSS	State Management	Redux Toolkit, Zustand, Context API
Backend & APIs	Node.js, Express.js, REST APIs	Databases & ORM	PostgreSQL, MongoDB, Prisma, Drizzle
Authentication	OAuth2, JWT, Role-Based Access Control (RBAC)	DevOps & Deployment	Git, Bitbucket, Jira, Docker, Vercel, CI/CD Pipelines
Performance & SEO	Core Web Vitals, Lazy Loading, SSR, SSG, SEO Optimisation	AI & Automation	N8N Workflow Automation, Gemini API, REST API Integration
CMS & Others	WordPress, Email Template Design, Landing Page Development		

PROJECTS

Verdira
Tools : NextJS, Vercel, Tailwind
<https://verdira.com/>

Rebuilt a static marketing website into a scalable web application with a structured architecture focused on long-term growth. Implemented authentication and password-protected client areas, improved application performance, and reorganized the codebase to make it easier to maintain and extend. Collaborated with stakeholders to deliver a secure, responsive, and user-friendly platform capable of supporting future business requirements.

Vape Planet
Tools : Next.js, React, Tailwind CSS, Material UI, Responsive web design
<https://vapeplanet.co.uk/>

Independently developed the frontend of a production e-commerce platform using Next.js, Material UI, and Tailwind CSS. Built responsive, pixel-perfect user interfaces from concept to implementation, integrated frontend payment workflows, and optimized the application for performance and scalability. Focused on creating reusable components and delivering a modern shopping experience across desktop and mobile devices.

AussieMotor
Tools : Next.js, Tailwind CSS, Mantine UI, Firebase, MongoDB, Git, Responsive Design
<https://aussiemotor.com.au/>

Contributed to migrating a large automotive marketplace from WordPress to a scalable Next.js application, improving maintainability and overall performance. Developed responsive and reusable UI components using Mantine UI and Tailwind CSS while collaborating with the team to build dashboard interfaces and frontend features that provided a faster and more consistent user experience across devices.

Digestive Care
Tools : WordPress, HTML5, CSS3, JavaScript, Responsive Design
<https://digestivecarepl.com/>

Developed a healthcare website with an integrated patient portal by extensively customizing WordPress themes and functionality to match the client's branding and workflow requirements. Implemented responsive layouts, integrated appointment booking features, and connected the patient portal to provide a seamless experience for both patients and healthcare professionals.

Talha Estate
Tools : WordPress, HTML5, CSS3, JavaScript, Custom Plugins
<https://talhaestate.com/>

Designed and developed a complete real estate platform with a scalable CMS architecture for managing property listings and content efficiently. Built responsive interfaces using HTML, CSS, and JavaScript, customized WordPress functionality through plugins, and created a structured user experience that simplified property management while improving usability across all devices.

EDUCATION

Bachelors
University of Punjab
Aug 2020 - Continue

Intermediate
Government College Township, Lahore
May 2018

CERTIFICATIONS

Certified Web Designer & Developer
PSDF Pakistan
March 2020
