SUMMARY

Senior Frontend Engineer with 5+ years of experience building and optimizing production web applications using React, Next.js, TypeScript, and modern frontend architecture. Experienced in performance optimization, Core Web Vitals, REST API integration, reusable component systems, responsive interfaces, and production-focused development. Strong background in translating complex product requirements into scalable, maintainable frontend solutions.

EXPERIENCE

Oxiliry — Senior Frontend Engineer

April 2021 – Present

- Improved **Core Web Vitals by 30%** across production **React.js and Next.js applications** through bundle optimization, lazy loading, tree-shaking, image compression, and build-pipeline optimization.
- Developed and maintained **responsive, production-grade web applications** using **React.js, Next.js, JavaScript/TypeScript, reusable components, and modern frontend architecture**.
- Redesigned and enhanced a production **chat interface**, resolving UX issues while preserving existing functionality, integrations, and business logic.
- Integrated **RESTful APIs** and delivered accessible, cross-browser interfaces from **Figma designs**, following responsive design, performance, SEO, and Agile/Scrum development practices.

Elite International Group — User Interface Designer

November 2020 – March 2021

- Led the end-to-end **UI redesign of an LMS platform**, including student dashboards, portals, and administrative interfaces using a component-based approach.
- Built and maintained a reusable **design system** covering components, design tokens, typography, spacing, and icon libraries.
- Migrated the design workflow from **Adobe XD to Figma**, improving collaboration, feedback, and developer handoff.
- Conducted structured **design handoffs with developers**, ensuring pixel-accurate, responsive, and consistent implementation across the product.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript/Javascript (ES6+), HTML5, CSS3.

Frontend Architecture & State: Component Architecture, Reusable Components, Redux Toolkit, Zustand, Context API.

UI & Styling: Tailwind CSS, Material UI (MUI), Mantine UI, Bootstrap, Responsive Web Design, Ant Design.

APIs & Backend: RESTful APIs, Node.js, Express.js, API Integration, Authentication.

Databases & ORM: PostgreSQL, MongoDB, Prisma, Drizzle

Performance, SEO & Accessibility: Core Web Vitals, Performance Optimization, SSR, SSG, SEO, Lazy Loading, Code Splitting, WCAG, Semantic HTML, ARIA, Cross-Browser Compatibility.

Tools & Delivery: Git, Bitbucket, Docker, CI/CD, Vercel, Jira, Agile/Scrum.

CMS & Web: WordPress.

PROJECTS

Verdira

Tools: Next.js, Vercel, Tailwind CSS | verdira.com

Rebuilt the static marketing website into a scalable **Next.js web application**, implementing authentication and password-protected client areas with a maintainable frontend architecture.

Vape Planet

Tools: Next.js, React, Tailwind CSS, Material UI | vapeplanet.co.uk

Independently built the frontend of a production e-commerce platform using Next.js and React, integrating payment workflows and optimizing performance across devices.

AussieMotor

Tools: Next.js, Tailwind CSS, Mantine UI, Firebase, MongoDB | aussiemotor.com.au

Contributed to migrating a large automotive marketplace from WordPress to Next.js, building dashboard interfaces and reusable UI components.

Select & Health — Healthcare Web Platform

Tools: Figma, Design System, UX Audit

Designed a component-based Figma design system for a patient-facing healthcare platform, focusing on usability, accessibility, visual consistency, and streamlined developer handoff.

Talha Estate

Tools: WordPress, UI Redesign, Custom Development, SMTP setup, ACF setup | talhaestate.com

Designed and built a modern real-estate website with structured property cards and clean typography using a customized WordPress CMS.

Digestive Care

Tools: WordPress, HTML5, CSS3, JavaScript, AFC Setup, Email SMTP Setup | digestivecarepl.com

Built a responsive healthcare website with an integrated patient portal, customizing the WordPress theme to align with branding and appointment-booking workflows.

Cennetsol

Tools: WordPress, HTML5, CSS3, NextJS, GSAP | cennetsol.com

Built a responsive **company marketing website** using Next.js and modern frontend technologies, implementing animated interfaces and structured sections for the company's services and content.

EDUCATION

Bachelor of Arts — University of the Punjab

2020 – Present

Intermediate — Government College Township, Lahore

2018

CERTIFICATIONS

Certified Web Designer & Developer — PSDF Pakistan

March – 2020
